

### Things you can do to help the environment.

To help you enjoy your stay in Scarborough we have provided you with information on local activities, many of which you can do without a car. Have a look in our 'Car Free and Care Free' file in the guest lounge for details on how to get about if you wish to leave your car behind for a day or two.

On top of this we have created some extra information on local, easy to access shops and restaurants that can be reached with or without a car and also those which focus on the use of fresh and local products. This list is also located in the Guest Lounge. Please take advantage of this information to enhance your stay. Supporting local business will enable Scarborough and North Yorkshire to thrive, thus creating an enhanced environment for visitors in the future.

If you wish us to recycle any of your waste please leave clean paper or cardboard next to your waste bin. Used batteries can be handed in at Reception. Please leave packaging from toiletries in the bathroom and they will be cleared and recycled when your room is serviced. Please turn lights off in your room when not needed.

You'll see copies of the Country Code in the guest lounge. Have a read, follow the guidance and please respect nature during your stay in North Yorkshire.

Our full environmental policy is available if you wish to see it. If you have any ideas about how we can become more green, please let us know.

Most of all have a great time when you are here. We'd like you to come back.
